

Anatomy

Unit-1

Introduction to anatomical terms and organization of the human Body.

Short-Answer

- ① cell structure
- ② Cytoplasm
- ③ Type of connective tissue
- ④ characteristic & types of epithelial tissue.

very-short Answer

- ① classification tissue
- ② types of muscle & example
- ③ cartilage
- ④ Body plane
- ⑤ Anatomical terms
- ⑥ Mitochondria

Unit-2 - Respiratory System

- ① Essay → a) Anatomy of the Respiratory system
b) Lungs

- ② Short-Answer → a) Larynx
b) Trachea

c) Throat

d) Broncho-pulmonary segments

e) Right lung

f) Respiratory muscles

- ③ Very-short Answer

a) organs of lower Respiratory tract

b) 4 structures of root of lung

c) Parts of sternum

d) structure of the trachea

⑤ Name the bones forming nasal septum

⑥ Name any muscle of pharynx.

⑦ Diaphragm ⑧ Inter costal muscles.

Unit-4 - Circulatory & lymphatic system

1) Essay → a) Describe the heart under the following heading
→ Situation, surface & borders
→ Chambers, Blood supply.

2) Short Answer → i) Composition of blood
ii) Blood vessels
iii) Major arteries of the systemic circulation
iv) Major veins of the systemic circulation
v) Blood supply of the heart
vi) Valves of the heart
vii) Right Atrium
viii) Name of the branches of right coronary artery
ix) Radial artery
x) Lymph node
xi) Thoracic duct

Unit-5 - Endocrine System

Essay → i) Mention common endocrine glands & explain

Short Answer → i) pituitary gland
ii) Thyroid gland
iii) Pancreas

- very-short-answer → i) Diff b/w endocrine & exocrine gland
ii) Histology of Thyroid
iii) Name hormone produced by Neurohypophysis
iv) Hormone of ovary
v) Blood supply of pancreas

Unit-6 - Sensory organs

1) Essay → a) Draw diagram of eye ball & explain parts

2) Short-answer → a) Structure of ear

b) middle ear

c) vestibular system

d) skin

e) Tympanic membrane

f) Inner ear

3) very-short answer → a) Auditory tube

b) Name the air sinus opening into middle meatus of nose

c) Parts of bony labyrinth

Unit-7 - Musculoskeletal system

- Essay → 1) Structure of the bone
2) Components of axial skeleton
3) Classification of bone
4) Wrist joint

Short-Answer :- i) Types of body movements

ii) Structure of clavicle

iii) Structure of the Scapula

iv) Facial muscles

v) Trunk muscle

vi) Bone : development

vii) Types of joint

viii) Contents of femoral triangle

ix) Femur anatomy and attachments

x) Bones of the upper limb

Unit-8 - Renal System

Essay → ① Name of the parts of excretory system.
Describe kidney in detail.

② Enumerate the parts of urinary system.
Describe gross anatomy of urinary bladder

Short-Answer → ① Nephron

② Adrenal gland

③ Urethra

Very-Short Answer

① Covering layer of kidney

② Ureters

③ Urethra

④ Trigone of bladder

Unit 9 - Reproductive System

Essay → ① Structure of the male Reproductive system
② Structure of the female Reproductive system

Short-Answer → ① Testes
② Structure of mammary gland
③ Ovary ④ Uterus ⑤ ~~Vagina~~

Very-Short Answer → ① Epididymis
② Seminiferous tubule
③ Male urethra
④ Leydig cells (Interstitial cells)
⑤ Name four structures in pelvic cavity
⑥ Name the parts of uterine tube
⑦ Fallopian tube
