SECTION 4 Protection and survival

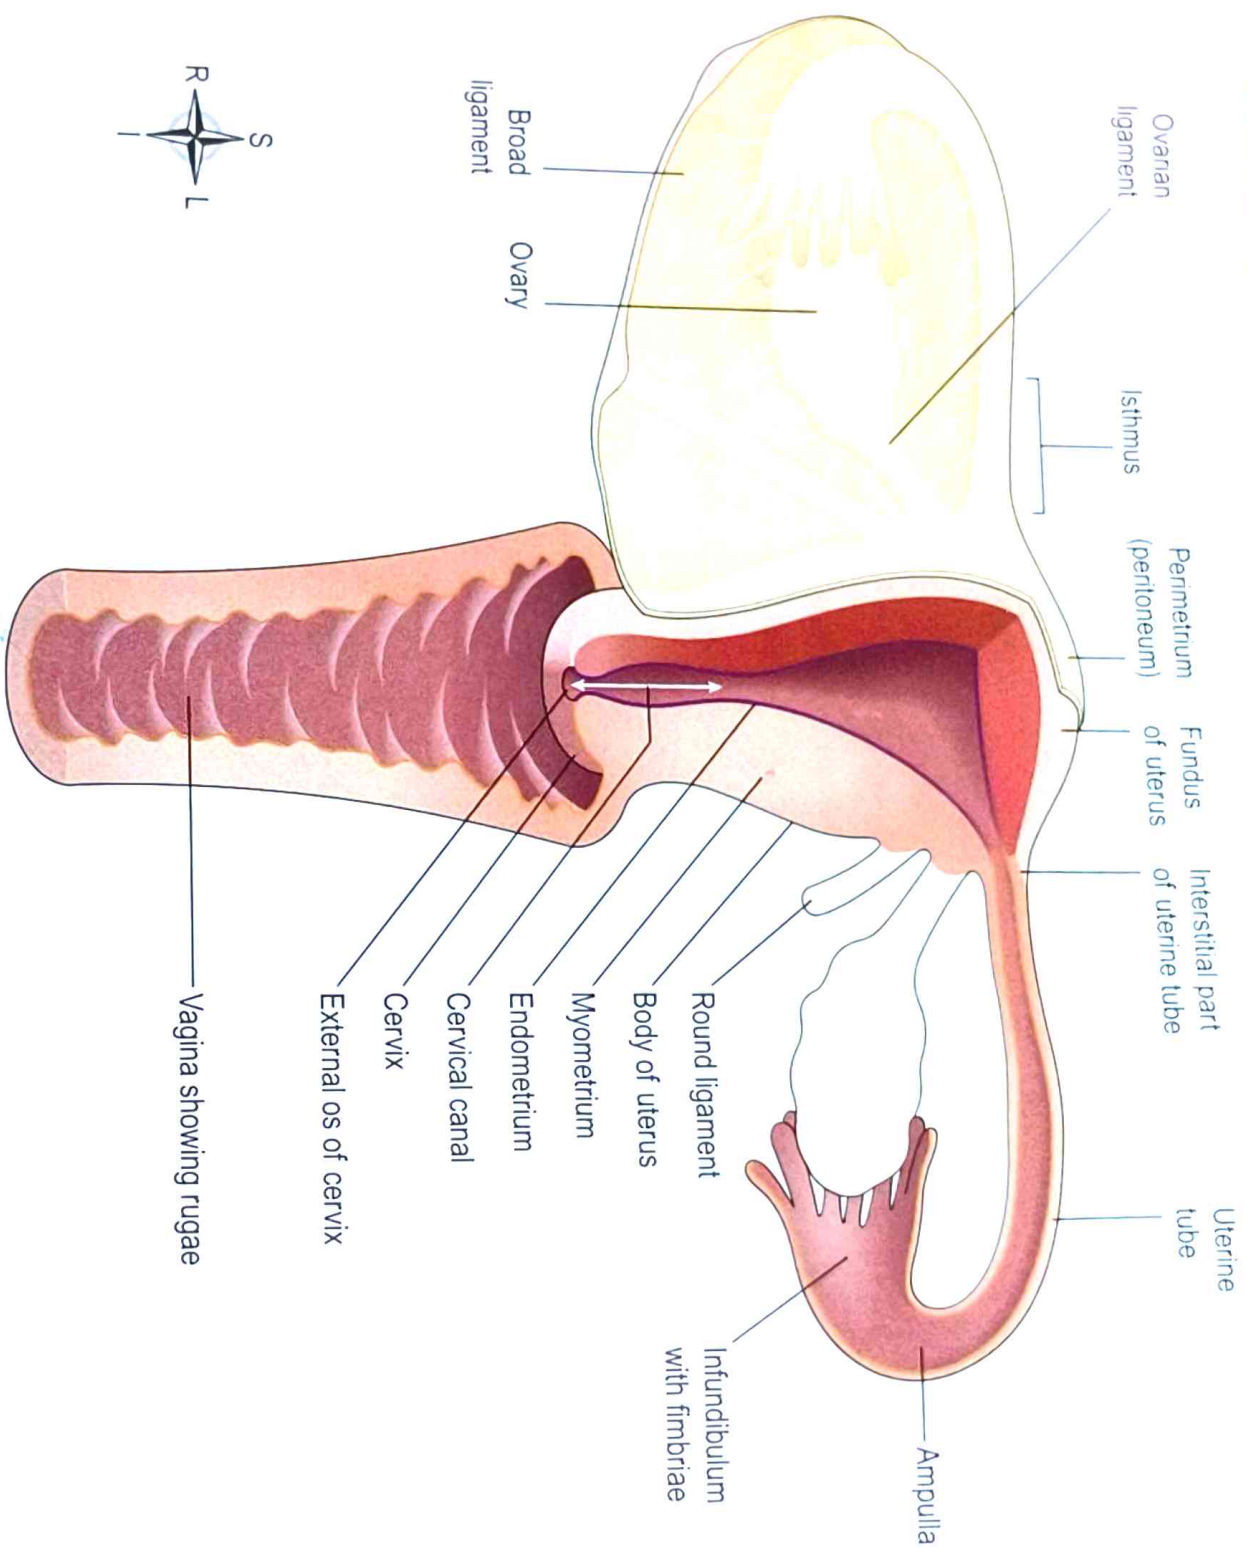

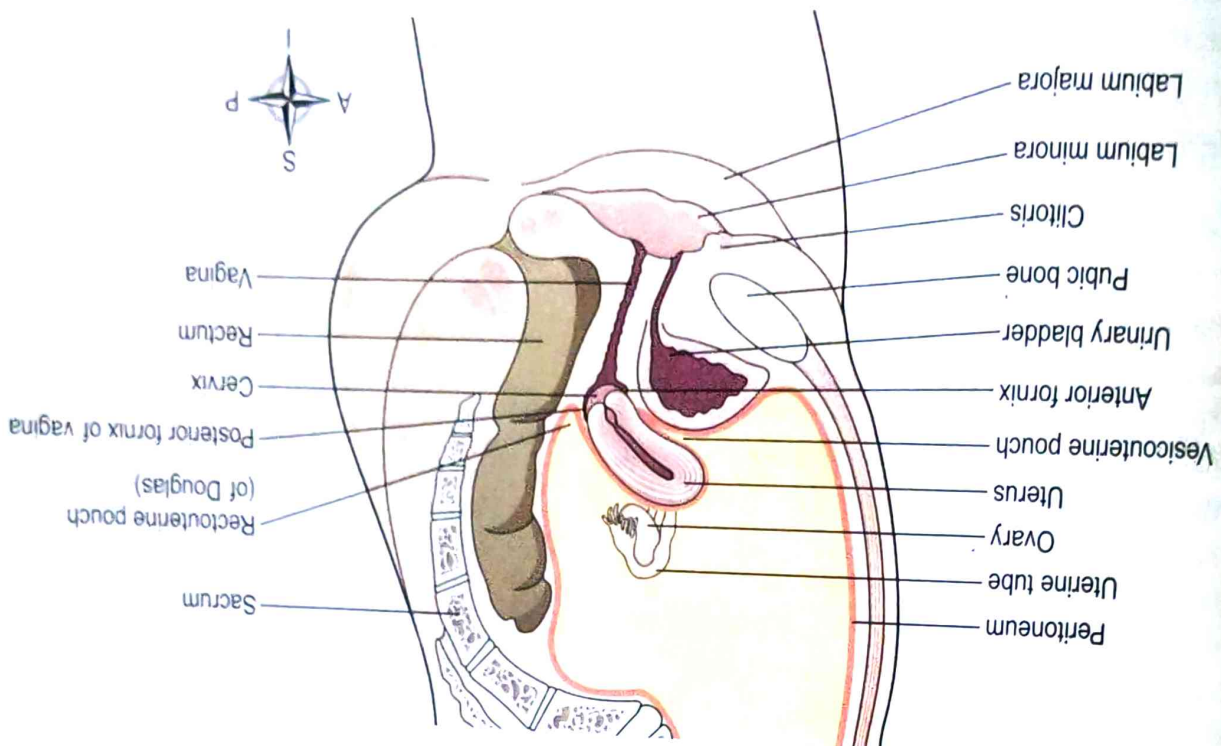

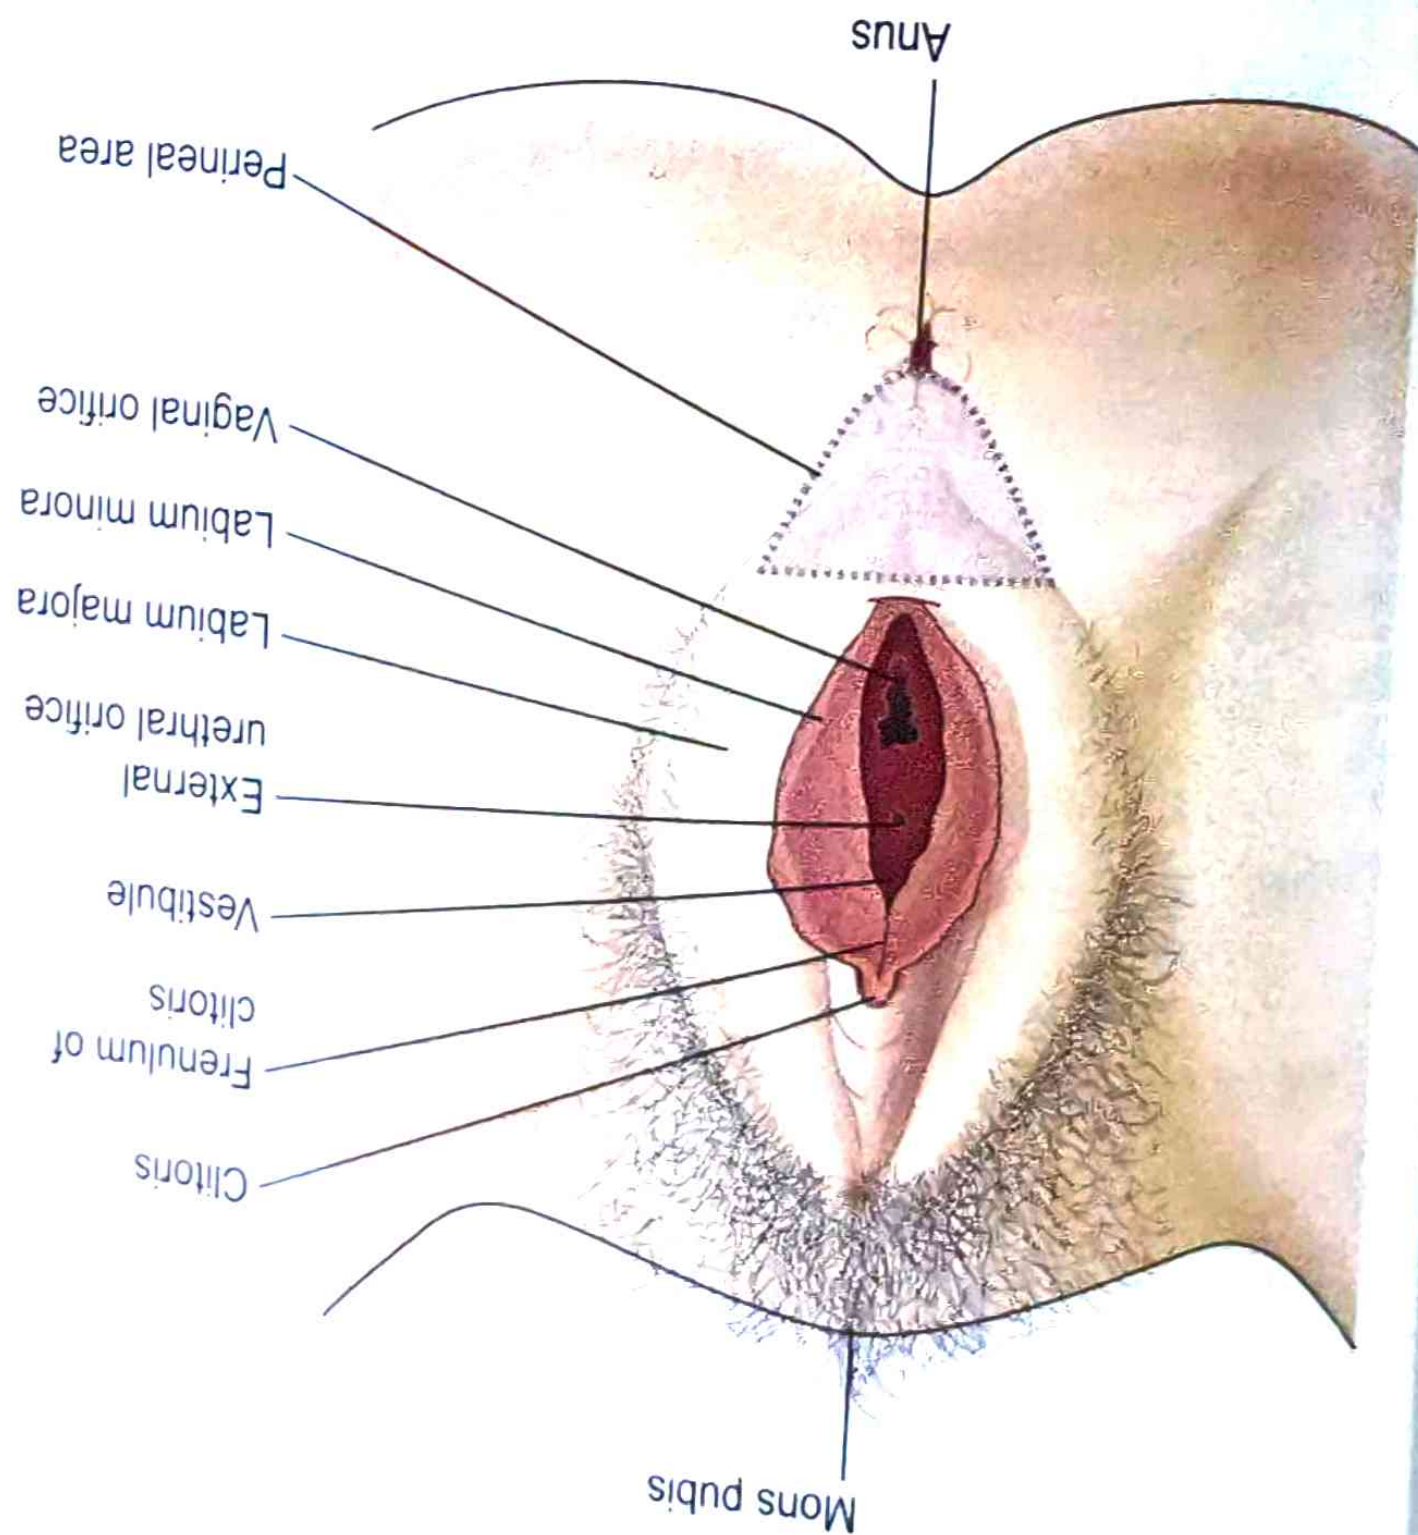

Figure 18.4 The female reproductive organs in the pelvis.

Figure 18.3 Lateral view of the female reproductive organs in the pelvis and their associated structures.

An anatomical diagram of the female perineal region. The diagram shows the vulva (vagina and clitoris) and the anus. The clitoris is labeled 'Clitoris' and the vagina is labeled 'Vagina'. The anus is labeled 'Anus'. The diagram also shows the perineal body and the perineal pouch. The diagram is oriented with the vulva at the top and the anus at the bottom. The diagram is a medical illustration showing the external female genitalia (vulva) and the anus. The vulva is shown with the labia majora and labia minora. The clitoris is visible at the top. The diagram is labeled with 'Anus' at the top and 'Mons pubis' at the bottom. The diagram is a medical illustration showing the external female genitalia (vulva) and the anus. The vulva is shown with the labia majora and labia minora. The clitoris is visible at the top. The diagram is labeled with 'Anus' at the top and 'Mons pubis' at the bottom.
